NOTES TO THE CONSOLIDATED CONDENSED INTERIM FINANCIAL STATEMENTS

APRIL 30, 2023

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

NATURE AND CONTINUANCE OF OPERATIONS AND GOING CONCERN ASSUMPTION

Cornish Metals Inc. (the "Company" or "Cornish Metals") exists under the laws of the Canada Business Corporations Act ("CBCA").

The Company trades on the TSX Venture Exchange ("TSX-V") and the AIM market of the London Stock Exchange Plc ("AIM") (TSX-V/AIM – CUSN). The Company's registered office is located at Suite 960 – 789 West Pender Street, Vancouver, BC, Canada V6C 1H2. The Company has two wholly-owned subsidiaries: Strongbow Alaska, Inc. which is incorporated under the laws of Alaska, USA and Cornish Metals Limited ("CML"), which is incorporated under the laws of the United Kingdom.

The Company's principal business activity is the acquisition, exploration and future development of exploration and evaluation assets. To date, the Company has not generated significant revenues from operations and is considered to be in the exploration stage.

The Company is in the process of exploring its exploration and evaluation assets and has not yet determined whether these properties contain reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets and related deferred costs is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the financing necessary to complete the development of its exploration and evaluation assets and upon future profitable production.

These consolidated condensed interim financial statements have been prepared on a going concern basis with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. However, the Company has sustained substantial losses from operations since inception and has no current source of revenue. Continued operations of the Company and further exploration and development of its exploration and evaluation assets is dependent on the Company's ability to obtain additional financing and generate profitable operations in the future. These material uncertainties may cast significant doubt about the Company's ability to continue as a going concern. These consolidated condensed interim financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported amounts of expenses and the classification of statement of financial position items if the going concern assumption was inappropriate. These adjustments could be material.

As at April 30, 2023, the Company had current assets of \$53,590,028 to settle current liabilities of \$3,022,646. Although the Company has positive working capital of \$50,567,382 as at April 30, 2023, the Company may be required to delay discretionary expenditures if additional financing cannot be obtained on reasonable terms. Failure to obtain additional financing when required may result in the loss of some, or all, of the Company's exploration and evaluation assets (Note 6).

SIGNIFICANT ACCOUNTING POLICIES

a) Statement of compliance

These consolidated condensed interim financial statements have been prepared in accordance with International Accounting Standards 34, Interim Financial Reporting ("IAS 34") using the same accounting policies and methods of application as the audited consolidated financial statements of the Company for the year ended January 31, 2023. These consolidated condensed interim financial statements do not include all disclosures required by International Financial Reporting Standards ("IFRS") for annual audited consolidated financial statements and accordingly should be read in conjunction with the Company's annual audited consolidated financial statements for the year ended January 31, 2023 prepared in accordance with IFRS as issued by the International Accounting Standards Board ("IASB").

The policies applied in these consolidated condensed interim financial statements are based on IFRS issued and outstanding as of June 21, 2023, the date the Board of Directors approved the statements.

NOTES TO THE CONSOLIDATED CONDENSED INTERIM FINANCIAL STATEMENTS

APRIL 30, 2023

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

SIGNIFICANT ACCOUNTING POLICIES - Continued

b) Basis of presentation

These consolidated condensed interim financial statements are expressed in Canadian dollars, the Company's presentation currency. These consolidated condensed interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss, which are stated at their fair value. In addition, these consolidated condensed interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

c) Change in functional currency

On February 1, 2023, the functional currency of the Company was changed to the British pound on a prospective basis. The functional currency determination was conducted through an analysis of the consideration factors identified in IAS 21. The Effects of Changes in Foreign Exchange Rates ("IAS 21"), namely:

- the currency of funds raised from recent fundraising activities was substantially denominated in British pounds, with those funds continuing to be held in British pound denominated bank deposits;
- the provision of funds by the Company to its UK subsidiaries for their ongoing development activities is denominated in British pounds; and
- most of the Company's recurring expenditure on corporate activities is denominated in British pounds.

The functional currency of the Company's UK subsidiaries was changed to the British pound on February 1, 2019.

The accounting policy for the translation of entities whose functional currency is not the Canadian dollar is set out in Note 3 (c) of the annual audited consolidated financial statements for the year ended January 31, 2023.

d) Adoption of new IFRS pronouncements

On February 1, 2023, the Company adopted the following IFRS pronouncements:

Standard	Impact on initial application
IAS 1 (Amendments) Presentation of financial statements	Disclosure of accounting policies in financial statements
IAS 8 (Amendments) Accounting policies, changes in accounting estimates and errors	Disclosure of accounting estimates in financial statements
IAS 12 (Amendments) Income taxes	Deferred tax relating to assets and liabilities arising from a single transaction

The impact of the amended standards is not expected to have a significant effect on the Company's accounting policies or the consolidated financial statements.

NOTES TO THE CONSOLIDATED CONDENSED INTERIM FINANCIAL STATEMENTS

APRIL 30, 2023

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company's financial instruments consist of cash, marketable securities, receivables, accounts payable and accrued liabilities, lease liabilities and NSR liability. The carrying value of cash, receivables, accounts payable and accrued liabilities approximate their fair values due to their immediate or short-term maturity and have been classified at amortized cost. Marketable securities which are publicly traded, have been classified at FVTPL and are recorded at fair value based on the quoted market prices in active markets at the period end, which is consistent with level 1 of the fair value hierarchy; marketable securities that are not publicly traded are recorded at fair value using estimates consistent with level 3 of the fair value hierarchy (inputs are not based on observable market data). Lease liabilities and the NSR liability are initially recorded at fair value and subsequently carried at amortized cost.

The Company is exposed to a variety of financial risks by virtue of its activities, including liquidity risk, credit risk, foreign currency risk, interest rate risk, equity market risk and commodity price risk. The Company's objective with respect to risk management is to minimize potential adverse effects on the Company's financial performance and position. The Board of Directors provides direction and guidance to management with respect to risk management. Management is responsible for establishing controls and procedures to ensure that financial risks are mitigated to acceptable levels.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations as they become due. The Company's ability to continue as a going concern is dependent on management's ability to raise the funds required through future equity financings and asset sales, or a combination thereof. The Company has no regular cash flow from its operating activities. The Company manages its liquidity risk by forecasting cash flow requirements for its planned exploration, future development and corporate activities and anticipating investing and financing activities. Failure to realize additional funding, as required, could result in the delay or indefinite postponement of further exploration of the Company's properties, and could result in the Company being unable to meet the continued listing requirements of the TSX-V and AIM. As at April 30, 2023, the Company had current assets of \$53,590,028 to settle current liabilities of \$3,022,646.

Credit risk

Credit risk is the risk of financial loss to the Company if a counter-party to a financial instrument fails to meet its contractual obligations. The maximum exposure to credit risk at the reporting date is the carrying value of the Company's receivables and cash. The Company's receivables consist primarily of sales tax receivables due from the Canadian and UK governments. The Company limits exposure to credit risk on liquid financial assets through maintaining its cash with high-credit quality financial institutions.

Foreign currency risk

The Company has its most significant exposure to foreign currency risk through expenditures incurred on its exploration and evaluation assets and property, plant and equipment in the United Kingdom. Most of the Company's expenditure incurred on these assets is denominated in British pounds. Where possible, the currency of any fundraising that is undertaken for the advancement of the Company's mineral properties in the UK is denominated in British pounds to mitigate foreign currency risk.

The fluctuation of the Canadian dollar in relation to the British pound also has an impact on the value of the Company's assets as reported in its consolidated condensed interim statement of financial position.

The Company does not presently invest in foreign denominated currency contracts to mitigate foreign currency risk, but will closely monitor this risk depending on the amount and currency of any future fundraising that is undertaken for the advancement of the Company's mineral properties located in the UK.

NOTES TO THE CONSOLIDATED CONDENSED INTERIM FINANCIAL STATEMENTS

APRIL 30, 2023

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT – Continued

Interest rate risk

The Company is exposed to interest rate risk to the extent that the future cash flows of a financial instrument fluctuate due to changes in market interest rates. The Company's exposure to interest rate risk is limited to the investment returns received on cash placed in deposits held with Canadian and British financial institutions. Funds not required for immediate working capital needs are placed in deposits to maximize investment returns whilst balancing near-term liquidity requirements. The Company has no financial liabilities subject to variable interest rates.

Equity market risk

The Company is exposed to equity price risk arising from its marketable securities, which are classified as FVTPL. The Company sells its marketable securities as market conditions permit, or as is required to finance the Company's operations from time-to-time.

Commodity price risk

The Company is exposed to price risk with respect to commodity prices, particularly tin and copper. The ability of the Company to explore and develop its exploration and evaluation assets and the future profitability of the Company are directly related to the market price of commodities. The Company monitors commodity prices in forecasting its cash flow requirements for the funding of its ongoing exploration and corporate activities and estimated development costs in bringing assets into production. Since the Company remains in the exploration stage, it does not presently invest in commodity hedges to mitigate this risk.

MARKETABLE SECURITIES

The Company holds common shares in one TSX-V listed company and in two private mineral exploration companies (January 31, 2023 – one TSX-V listed company and two private mineral exploration companies).

		A	April 30, 2023		Jan	nuary 31, 2023
			Fair market			Fair market
	Cost		value	Cost		value
Public company shares	\$ 255,000	\$	320,000	\$ 255,000	\$	350,000

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many exploration and evaluation assets. The Company has investigated title to all of its exploration and evaluation assets and, to the best of its knowledge, title to all of its properties is in good standing.

a) Cornwall Mineral Properties, UK

On March 16, 2016, the Company entered into a Share Purchase Agreement ("SPA") with Galena Special Situations Fund and Tin Shield Production Ltd. (collectively, the "Sellers"). Under the terms of this SPA, on July 11, 2016, the Company acquired, from administration, a 100% interest in the South Crofty Tin Project and associated mineral rights in Cornwall, UK (collectively the "Cornwall Mineral Properties"). The Company, through its wholly-owned subsidiary, CML, owns a 100% interest in South Crofty Limited and Cornish Minerals Limited (Bermuda) ("CMLB") (collectively the "Companies"). The Companies hold the rights to the South Crofty underground mine permission area, plus additional mineral rights located in various parts of Cornwall, UK.

In addition to the cash and common share consideration paid on July 11, 2016, under the terms of the SPA the Company agreed to additional payments and share issuances in the form of deferred consideration. On June 30, 2021, the Company and the Sellers entered into a side letter (the "Side Letter") to the SPA to restructure the deferred consideration which remained outstanding at that date.

Pursuant to the Side Letter, the new fixed payments comprising the balance of the deferred consideration payable to the Sellers were as follows:

- Cornish Metals to issue 7,000,000 common shares to the Sellers ("Closing Shares") immediately upon receipt of shareholder and applicable regulatory approval of the Side Letter (issued October 29, 2021 in satisfaction of this commitment):
- In addition to the Closing Shares, a total of US\$9,750,000 were to be paid in common shares (the "Milestone **Shares**") as certain milestones are reached. The Milestone Shares are as follows:

NOTES TO THE CONSOLIDATED CONDENSED INTERIM FINANCIAL STATEMENTS

APRIL 30, 2023

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

EXPLORATION AND EVALUATION ASSETS – Continued

a) Cornwall Mineral Properties, UK - Continued

- Cornish Metals to make a US\$4,750,000 payment in common shares upon closing of the financing for the dewatering of the mine at the South Crofty Tin Project. Following completion of the financing on May 24, 2022, the Company issued 20,298,333 common shares to the Sellers on May 31, 2022 satisfying the deferred consideration payment equivalent to an amount of US\$4,750,000; and
- Cornish Metals to make a US\$5,000,000 payment in common shares upon making a decision to proceed with the development and / or construction of a mine either at the South Crofty Tin Project or at the United Downs property.

The future issuance of the Milestone Shares by the Company is subject to TSX-V approval prior to such issuance with the TSX-V determining the acceptability of the pricing of the Milestone Shares at the time of such approval.

b) Cornish Lithium exploration option agreement

In January 2017, CML and Cornish Lithium Limited ("CLL"), a private UK company, entered into an exploration option agreement whereby CLL has the right to explore for, and potentially develop, lithium in hot springs brines and associated geothermal energy from the Company's mineral rights in Cornwall, UK. The Company will have a 25% free carried interest in the first project to have a bankable feasibility study completed on it, after which the Company will be required to contribute its share of development costs or be diluted. The Company will have a 10% free carried interest on subsequent development projects as well as a 2% gross revenue royalty payable from the production of metals from brines or from any geothermal energy produced and sold by CLL.

Under the terms of the agreement, CLL agreed to issue common shares with a value US\$50,000 concurrently with its first financing and, to keep the agreement in good standing, to issue common shares with a value of US\$50,000 on the first, second, third and fourth anniversary of the agreement. From the fifth anniversary date of the agreement, CLL will make annual payments of US\$100,000, in cash or common shares of CLL, at its election. From the tenth anniversary date of the agreement, CLL will make annual payments of US\$500,000 in cash or common shares of CLL, at its election, of which 50% of the payment will be considered an advance royalty payment.

(Expressed in Canadian dollars)

7. LEASE LIABILITY

	 onths ended pril 30, 2023	Year ended January 31, 2023
Opening balance	\$ 642	\$ 4,871
Lease payments	(723)	(4,459)
Amortization of discount – capitalized to exploration &		
evaluation assets	70	415
Foreign currency translation	11	(185)
Ending balance	\$ -	\$ 642

The following table is a summary of the carrying amounts of the Company's lease liabilities that are recognized in the consolidated condensed interim statement of financial position as of:

	April 3	30, 2023	Janua	ary 31, 2023
Current portion of lease obligation	\$	-	\$	642
Long-term portion of lease obligation		-		
Ending balance	\$	-	\$	642

During the year ended January 31, 2022, the Company recognized a right-of-use asset and a lease liability relating to a motor vehicle used in Cornwall, UK. The lease liability was initially measured at the present value of the lease payments, discounted using the Company's estimated incremental borrowing rate of 5%, rather than the interest rate implicit in the lease, as that rate could not be readily determined. The final payment under this lease was made in March 2023.

NOTES TO THE CONSOLIDATED CONDENSED INTERIM FINANCIAL STATEMENTS APRIL 30, 2023

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

NSR LIABILITY

	Thi	ee months ended	Year ended
		April 30, 2023	January 31, 2023
Opening balance	\$	9,149,804	\$ 8,717,330
Foreign currency translation		156,266	432,474
Ending balance	\$	9,306,070	\$ 9,149,804

On January 26, 2018, the Company completed a secured convertible note financing (the "Note") with Osisko Gold Royalties Ltd. ("Osisko"), a significant shareholder of the Company at that date, for gross proceeds of \$7,170,000. The Note was convertible into a 1.5% NSR on all metals and minerals produced from the South Crofty Tin Project at Osisko's option (the "Royalty Option").

On February 19, 2021, Osisko exercised the Royalty Option and converted its Note into two royalties as follows:

- a perpetual 1.5% NSR on the South Crofty Tin Project; and
- a perpetual 0.5% NSR on any other mineral rights held by the Company in Cornwall, UK that do not form part of the South Crofty Tin Project (together, the "Royalty Agreements").

Both royalties become payable from the commencement of production which is defined in the Royalty Agreements. The royalties are payable on all products which include any and all metals, minerals and products or by-products thereof.

The Royalty Agreements are secured over the Company's subsidiary, CMLB, which holds the Company's mineral rights in Cornwall, UK, and a share charge over CML's holding in CMLB. Liquidated damages also become payable to Osisko in the event of default.

The NSR liability was initially recorded at fair value at the date of conversion of the Note, net of transaction costs, with an initial carrying value of \$8,648,380.

CAPITAL AND RESERVES 9.

Authorized share capital

At April 30, 2023, the authorized share capital is an unlimited number of common shares without par value. All issued shares are fully paid.

Share issuances from fundraising activities

Three months ended April 30, 2023 and April 30, 2022

There were no share issuances during the three months ended April 30, 2023 and 2022.

As at April 30, 2022, the Company received share subscriptions in advance totaling \$30,000 in connection with the financing which completed on May 24, 2022.

CAPITAL AND RESERVES - Continued

Stock options and warrants

As at April 30, 2023, the following stock options and warrants were outstanding and exercisable:

		E	exercise		
	Outstanding		Price	Exercisable	Expiry date
Options	5,150,000	\$	0.10	5,150,000	August 19, 2025
Warrants	225,000,000		0.46^{1}	225,000,000	May 24, 2025

Pursuant to the terms of the Offering, the exercise price of these warrants is £0.27 for non-Canadian investors or \$0.45 for Canadian investors.

Stock options

The Company has a '10% rolling' stock option plan (the "Plan"). The maximum aggregate number of common shares issuable pursuant to options awarded under the stock option plan and outstanding from time to time may not exceed 10% of the issued and outstanding common shares from time to time.

Under the terms of the Plan, options will be exercisable over periods of up to five years as determined by the Board of Directors and must have an exercise price not less than the closing market price of the Company's shares prevailing on the day that the option is granted. Under the Plan, the Board of Directors may from time to time authorize the grant of options to directors, officers, employees and consultants of the Company and its subsidiaries, or employees of companies providing management or consulting services to the Company or its subsidiaries.

The Plan provides that the directors have the discretion to impose vesting of options and that, unless otherwise specified by the directors, vesting will occur generally as to 20% on the grant date and 20% every three months thereafter, becoming fully vested one-year from the date of grant. In addition, the number of shares which may be reserved for issuance to any one individual may not exceed 5% of the issued shares on a yearly basis or 2% if the optionee is engaged in investor relations activities or is a consultant.

Stock option transactions for the three months ended April 30, 2023 are summarized as follows:

	Number	Weighted average	
	of options	exercise price	
Balance, April 30, 2023 and January 31, 2023	5,150,000	\$ 0.10	
Number of options exercisable as at April 30, 2023	5,150,000	\$ 0.10	

Warrants

Warrant transactions for the three months ended April 30, 2023 are summarized as follows:

	Number	Weighted average		
	of warrants	exercise price		
Balance, January 31, 2023	225,250,000	\$	0.44	
Exercised	(250,000)		0.07	
Balance, April 30, 2023	225,000,000	\$	0.46	

The shares related to the warrant exercises were issued on February 3, 2023, although the Company received the exercise proceeds before January 31, 2023. These proceeds were classified as share subscriptions received in advance as at January 31, 2023.

CAPITAL AND RESERVES - Continued

Capital contribution

The capital contribution reserve represents gains arising from two transactions with Osisko in prior years whilst Osisko was a significant shareholder of the Company.

10. CAPITAL MANAGEMENT

The capital of the Company consists of the items included in capital and reserves as set out in the consolidated statement of financial position. The Company manages its capital structure based on the nature and availability of funding, and the timing of expected or committed expenditures. The Company's capital management policy is to maintain sufficient capital to support the acquisition, exploration and future development of its exploration and evaluation assets and to provide sufficient funds for its corporate activities.

The Company's exploration and evaluation assets are in the exploration stage. As an exploration stage company, the Company is currently unable to self-finance its operations. The Company has historically relied on equity financings and asset sales, or a combination thereof, to finance its activities. The Company forecasts its future capital requirements by planning the exploration and future development activities to be undertaken on its exploration and evaluation assets, and assessing the level of corporate activities that are necessary to support the growth and development of the Company.

The Company is not subject to any externally imposed capital requirements. There were no changes to the Company's approach to capital management during the period.

11. COMMITMENTS

The Company has entered into contracts with utility providers, land owners and mineral lease owners, none of which are regarded as significant or non-routine in nature. Costs under these contracts are either expensed to profit or loss, or capitalized to exploration and evaluation assets depending on their nature.

The Company also has outstanding commitments amounting to \$7.4 million as at April 30, 2023 relating to the construction of the water treatment plant and the associated dewatering of the South Crofty mine. The timing of payments relating to these commitments depends on the progress of the construction and commissioning of the water treatment plant but settlement of these commitments is expected within twelve months of the year end.

Upon commencement of mining, the Company is liable to make payments to owners of mineral properties within the underground mine permission area of the South Crofty Tin Project which the Company leases for the purposes of ore extraction. Payments will take the form of either:

- an advance payment of £84,000 per annum (equivalent to \$143,102 at the period end GBP/CAD rate) during periods when there is no production from the respective owner's mineral rights ("Advance Royalty Payments"),
- a NSR payable for a minimum of £84,000 on ore extracted from property that falls within the mineral rights held by the owners which varies according to the prevailing tin price.

The Advance Royalty Payments will be deducted from NSR royalty payments as and when the NSR royalties become payable.

(Expressed in Canadian dollars)

12. RELATED PARTY TRANSACTIONS

Key management includes the Company's directors and officers. Compensation awarded to key management was as follows:

	Three months ended					
	April 30, 2023	April 30, 2022				
Salaries and benefits ¹	\$ 258,664	\$ 208,241				
Directors' fees	52,448	32,500				
Total	\$ 311,112	\$ 240,741				

Allocated \$256,381 (Comparative Period - \$205,491) to salaries and benefits, and \$2,283 (Comparative Period - \$2,750) to professional fees

13. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS

During the three months ended April 30, 2023, the significant non-cash transactions were:

- a) Included in exploration and evaluation assets are capitalized depreciation of \$64,237, prepaid expenses of \$118,642 and \$1,559,018 which relates to accounts payable and accrued liabilities; and
- b) Included in property, plant and equipment is \$973,717 which relates to accounts payable and accrued liabilities.

During the three months ended April 30, 2022, the significant non-cash transactions were:

- Included in exploration and evaluation assets are capitalized depreciation of \$10,963, prepaid expenses of \$154,563 and \$571,208 which relates to accounts payable and accrued liabilities;
- b) Included in property, plant and equipment is \$2,790 which relates to accounts payable and accrued liabilities;
- c) Included in deferred financing fees is \$88,419 which relates to accounts payable and accrued liabilities; and
- Included in exploration and evaluation assets are acquisition costs of \$41,494 which relates to the remeasurement of the deferred consideration payable for the Cornwall Mineral Properties (Note 6).

14. SEGMENTED INFORMATION

The Company operates in one business segment, being the exploration and evaluation of mineral properties in the United Kingdom. Assets located in Canada either relate to the corporate centre or mineral properties which have been impaired. The geographical split of assets is as follows:

	As at April 30, 2023				As at January 31, 2023						
		Canada]	United Kingdom		Total	Canada		United Kingdom		Total
Deposits	\$	-	\$	85,554	\$	85,554	\$ -	\$	54,165	\$	54,165
Property, plant and equipment Exploration and evaluation		-	13	3,452,835	13	,452,835	-		9,721,352	9	0,721,352
assets		-	38	3,418,329	38	,418,329	-		33,088,129	33	3,088,129
